Sam's Scoop

Arts in schools

Is art an essential? Of course it is. It is proven that just having the option of an art class can improve the mood and working ability in people. Have you ever been stressed and can't listen in class so you doodle pictures on your work? That's your mind's way of refocusing on the here and now. Imagine how focused an entire class of doodling can make you. So next time you're in your art class, make sure to thank your teacher, they're helping more
